

Ref. No.: MI11011 From: Heavy Compaction/Lars Lundahl To: Customer Centres, Dynapac Distributors  
Attn: Sales, Service & Parts manager

## A new member in the CA family

### CA270D

The new CA270D is now available for shipment from our factory in Nashik. With an operating weight of 11,300 kg/ 24,900 lbs and with a big amount of that weight placed on the front module the CA270D has got a very good compaction capacity. The static linear load comes up to 33.8 kg/cm. As a comparison the CA250D has got 26.3 kg/cm.

The CA270D is equipped with a Tier 1/ Stage I Cummins diesel engine.

Please find enclosed copy of technical data sheet for more technical data.

The P/N for the CA270D is 4812104001.

Options available for the CA270D will be:

	<i>Description/Specification</i>	<i>Part No</i>
